Business Analytics XI 4.2 Dashboard Installation

General Overview	1
Prerequisites	1
BusinessObjects Dashboard Installation Steps	1

General Overview

Dashboard is data visualization software that allows you to create and export interactive dashboards. These dashboards contain various components, such as charts, graphs, and buttons, that are bound to data sources. These components display the data in a compact and visual manner, which can then help the dashboard consumer see trends and make informed business decisions. This document walks you through the process of installing BO Dashboard. The intended audience is CSC installers and technical support. The document can also be used by sales and clients' technical personnel as reference.

Prerequisites

The following needs to be done prior to installation of Dashboard:

- 1. The user installing BusinessObjects Dashboard should have Administrative rights and be a member of local administrator group.
- 2. Adobe Flash Player 11 (or later).
- 3. Microsoft Excel 2007 (or later).

BusinessObjects Dashboard Installation Steps

Follow the below steps to install BO Dashboard:

1. Right click on the installer file and select Run as Administrator.
